Quarterbacks

Doc's Notes: Quarterback is deeper than people realize. I've been seeing them go earlier than ever in high stakes leagues but I am willing to wait on players like Lawrence, Jones and Cousins if it fits my roster construction.

Running Backs

Doc's Notes: There is plenty of running back value right now in Rounds 5-7. Plan on taking one RB in Rounds 1-3 and then waiting until Rounds 5-7 to get your RB2.

Tight Ends

Doc's Notes: I want to make sure I have one of the top 12 tight ends on this list. Waller could end up as a top-three overall TE if he stays healthy; Okonkwo and Dulcich are terrific values in the mid-rounds.

Wide Receivers

Doc's Notes: Wide receivers aren't as important in Standard leagues, but you still want a stud or two who can catch double-digit TDs. After that you can try to cherry-pick players on good offenses who have upside.

Kickers

Doc's Notes: My leagues barely play with kickers anymore, but if yours does, make sure you get one from a good scoring offense.

Defense/Special Teams

Doc's Notes: I prefer to wait on defenses in the draft and stream them throughout the season. Miami could be really sneaky this year as they improved dramatically in the off-season.
